bluesource

BACKUP AS A SERVICE (BaaS)

Protect your mission critical data with a fully managed, secure and scalable data protection platform.

bluesource's Backup as a Service (BaaS) makes it simple to protect against data corruption and loss. It uses world-leading Backup technologies and expert engineers to deliver a fully managed service that allows you to focus on the core of your business.

We deploy and manage your Backup services, giving you a trusted partner for managing data risk. Your file systems, applications and virtual server data are protected 24/7/365 with data specialists ensuring that data recovery is rapid and reliable.

Our fully managed OPEX-based solution:

- Reduces the risk of on-premise Backups
- Saves hassle and time in managing Backups in-house
- Refocuses your IT department to your core business outcomes
- Gives you complete control with reports and alerts

24x7x365
Support On All Services

ISO 27001 Certified

PCI & GDPR Aware

BACKUP AS A SERVICE (BaaS)

Benefits

An OPEX-Based Model
BaaS makes it easy to efficiently scale-up your Backup services without being restrained by CAPEX demands

Choice of Backup Locations
We can store multiple data copies at a location of your choice from on-site appliances to Public Clouds such as Azure and AWS

Secure Access and Permissions
You gain complete piece of mind with secure and delegated access rights and permissions

Hybrid Data Recovery & Retention Options
We give you the option to deploy hybrid on-premise appliances or use Public Cloud such as Azure and AWS to benefit from reliable on-site data recovery

24/7/365 Support
Our expert engineers and data recovery specialists are on hand 24/7/365 for all your Backup needs and requirements

New Visibility
Our intuitive web portal enables you to monitor Backup status, coverage, success rates and consumption via alerts, notifications and reports

Why Choose Us

Trusted Partner
Our expert engineers and data recovery specialists are trusted by world-leading enterprises and have a track record of success

Secure & Scalable Platform
We offer a data protection platform that is ready to grow with your business and scale to meet your future needs

World-Leading Technology
We combine industry leading technologies with our innovative processes to deliver a reliable and trusted BaaS solution

Proven Experts
Our engineers and specialists are at the top of their game and are ready to support your business 24/7

Fully Outsourced Solution
You can rely on us to set up, monitor and manage your Backup with regular reporting and full visibility into your operations
