

A next-generation data management service with a fully managed, secure and scalable data protection platform.

bluesource's Backup as a Service (BaaS) makes it simple to protect against data corruption and loss. It uses world-leading Backup technologies and expert engineers to deliver a fully managed service that allows you to focus on your core business.

We deploy and manage your Backup services, giving you a trusted partner for managing data risk. Your file systems, applications and virtual server data are protected 24/7/365 with data specialists ensuring that data recovery is quick and reliable.

FULLY MANAGED OPEX-BASED SOLUTION

- ✓ Reduces the risk of on-premises Backups
- ✓ Saves hassle and time in managing Backups in-house
- ✓ Gives you complete control with reports and alerts
- ✓ Refocuses your IT department to your core business outcomes

Our BaaS solution removes the complexity from Backup and makes it easier for organisations to grow. It takes away the need to make CAPEX-intensive investments in Backup while enabling you to leverage leading Data Centres and Public Clouds including Microsoft Azure and Amazon Web Services (AWS) to manage its data.

BENEFITS

AN OPEX-BASED MODEL

BaaS makes it easy to efficiently scale-up your Backup services without being restrained by CAPEX demands

CHOICE OF BACKUP LOCATIONS

We can store multiple data copies at a location of your choice from on-site appliances to Public Clouds such as Azure and AWS

SECURE ACCESS AND PERMISSIONS

You gain complete peace of mind with secure and delegated access rights and permissions

HYBRID DATA RECOVERY & RETENTION OPTIONS

We give you the option to deploy hybrid on-premises appliances or use Public Cloud such as Azure and AWS to benefit from reliable on-site data recovery

24/7/365 SUPPORT

Our expert engineers and data recovery specialists are on hand 24/7/365 for all your Backup needs and requirements

NEW VISIBILITY

Our intuitive web portal enables you to monitor Backup status, coverage, success rates and consumption via alerts, notifications and reports

ABOUT BLUESOURCE

bluesource has over 20 years of experience helping organisations better protect, govern, move and manage their data. We have an enviable client list of customers who see business benefit from investing in their data systems, tools and processes.

We pride ourselves on our service quality and many of our customers have recognised this through their long term continued custom.
