

START YOUR CLOUD JOURNEY TODAY...

There are many benefits of moving your emails and email archives to Cloud platforms such as Microsoft 365, including improved business resilience, better collaboration, enhanced security, easy eDiscovery and access anywhere for your teams.

With migrations being complex and unique to your business situation, this is where bluesource comes in.

bluesource is a globally recognised migration expert with the first-hand experience in a wide range of data migration scenarios. We will help you plan and execute every aspect of your migration and work with you to avoid downtime, protect information and maintain an unbroken chain-of-custody.

Whether your organisation wants to migrate on-premises workloads to Azure, migrate user's legacy archived data or legacy journal archives to Enterprise Vault, or migrate your mailboxes to Microsoft Office 365 – we will make your migration process easy.
